

Website Sign-Up and Login Instructions for NEW Snowbird Club Members

Website: SCSHSnowbirds.com

Why do members need to log in?

- To see event dates and times and to register for Snowbird RSVP or Ticketed events
- To see Members Area information on board members, coordinators and home maintenance presentation resources.
- To renew your annual membership dues.

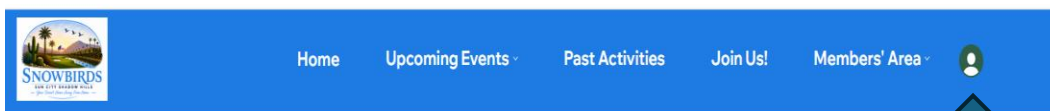

Let's get you set up! We will go slowly, step by step.

These instructions will help you set up your email and password for your Snowbird Membership account. It will show you tips to avoid re-entering your password all the time and what to do if you forget it.

Please note: Your email must always be the same one you used to sign up for Membership.

OK? Let's proceed!

Go to the website (SCSHSnowbirds.com) and click on the login icon – far right on the menu, as shown here with the arrow. Looks like a little person in a circle.

A new screen pops up.

Now what?

In the diagram below, we show you what to do

- Enter your email address (**at the #1 arrow**) – the email you signed up with
- Enter your password (**at the #2 arrow**)
 - Pick something you can remember
 - Our new website requires 6 to 12 letters, which are case-sensitive, and may include these special characters if you want _ - ! @ # \$ % ^ & *
 - Do not use a period in your password
- Click on the "I'm not a robot " checkbox (**the # 3 arrow**)
- Click Sign-Up (**the #4 arrow**)

What happens next?

You will see this screen. Don't close it; instead, go to your email and find the code to enter on this screen.

A screenshot of a web page titled "Confirm your email" in blue. Below the title, it says "To finish signing up, confirm your email by entering the 6-digit code we sent to: cam@futurelegacies.ca". There is a text input field with the placeholder "Enter 6-digit code". Below the input field is a green button labeled "Confirm & Sign Up". At the bottom, it says "Didn't get the email? Check your spam." with a link "Resend Code" below it.

The email will look like this...

After you use the code on the “Confirm your email” screen above, the next screen takes you back to the website, with one difference: you are now logged in. Instead of the little person icon, at the upper right, you will see the beginning of your email address. Like this:

If your browser/system allows it, you may also see a “Save your password” pop-up like the one below. Click Save to make it easier to log in the next time you log out.

Save your password? ×

Your password will autofill the next time and will be saved to your Microsoft account

Not now ▾

Now you have an official account; click where the arrow shows – i.e. on the email shown - to view your details and open your new personal account. These sections can be very handy. Please explore!

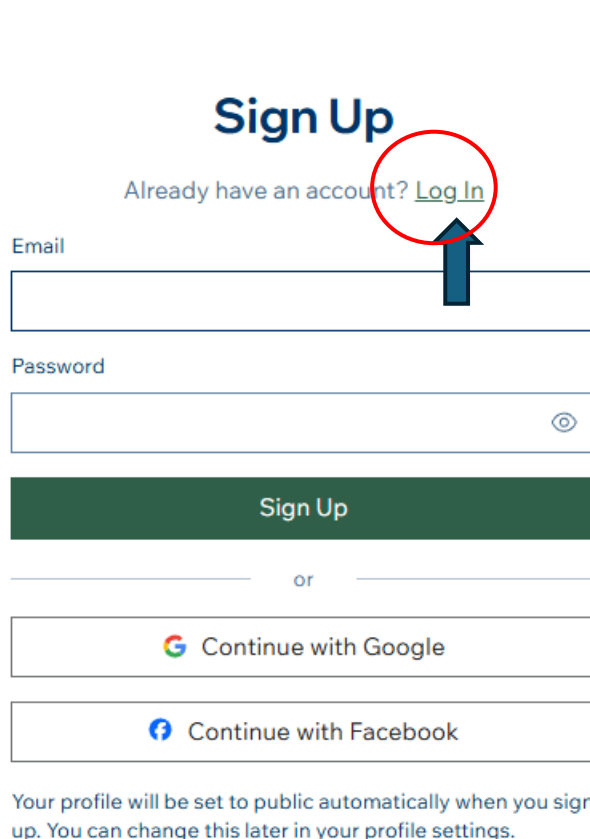

Logging In

If you log out, you can always log back in using your email and password.

When you click on the little person, you will see this screen below. Notice that my email and password are pre-populated. That's because I saved my password when the system asked above.

This time, we don't want to “Sign Up” because we already did that, and you only need to do that once. This time we want to “Log In”

To do so, click the Log In link in the red circle and arrow at the top right of this pop-up.

Your profile will be set to public automatically when you sign up. You can change this later in your profile settings.

Now you will see the screen below; enter the email and password you just created to log in. Notice that saving my password pre-populates this form too (actual email hidden)!
